

# End destinations report for 2017/18

## Published November 2018

### Introduction

This report presents the final destinations in 2017/18 for each type of recycled material collected either from the kerbside or via bring bank sites from each borough and district council in Surrey. It also does the same for recyclables collected at Surrey County Council's community recycling centres.

The information was collected from the councils directly and also from their WasteDataFlow submissions (2017/18). WasteDataFlow is a web based system for UK local authorities to report their municipal waste data to the government.

Please note that any destination marked "overseas" is where the specific final destination was not reported.

## End destinations report
