

## Accessibility statement for Surrey Environment Partnership

This website is managed by Surrey Environment Partnership and is compliant with the [Web Content Accessibility Guidelines version 2.0](#) standard.

We are committed to providing a website that is accessible and easy to use by anyone, regardless of age, background, access device or level of ability or disability. That means you should be able to:

- Change colours, contrast levels and fonts.
- Zoom in up to 300% without the text spilling off the screen.
- Navigate most of the website using just a keyboard.
- Navigate most of the website using speech recognition software.
- Listen to most of the website using a screen reader.

[AbilityNet](#) has advice on making your device easier to use if you have a disability.

This website was last tested on 28 June 2019. The test was carried out by Pre Creative Studios.

The development team used a Job Access with Speech (JAWS) tool when conducting an accessibility audit. The JAWS tool is a computer screen reader program for Microsoft Windows that allows blind and visually impaired users to read the screen either with a text-to-speech output or by a refreshable braille display. The audit verified the results in the following browsers:

- Safari
- Chrome
- Firefox
- Internet Explorer
- Opera

We're always looking to improve the accessibility of this website. If you have any problems accessing our website or part of it, then please [contact us](#).
